

Introducing PASA's new: **Certificate in Foundational Payments (PCFP)**!
Updated content, new format, same good value!

i What is covered in the PCFP?

Foundational Payments

- ✓ The importance of payments and how the National Payment System (NPS) supports the economy
- ✓ Payment system elements and categories of payment systems
- ✓ Key payment system concepts and characteristics of individual payment systems
- ✓ Transactional flows for wholesale and retail payment systems
- ✓ Clearing and Settlement functionality
- ✓ Different categories of stakeholders – positioning, roles, and responsibilities of stakeholders
- ✓ Interchange and how it works in different retail payment systems
- ✓ Importance of messaging standards in the payments environment and related collaboration in the industry
- ✓ Regulatory and legal frameworks in the NPS, indirect and direct regulation affecting the payments environment
- ✓ Categories of risk in the NPS, risk frameworks and how stakeholders work together to address risk matters
- ✓ PASA and how it works
- ✓ How South Africa's payments systems are being modernised
- ✓ The application and impact of new developments on the NPS, exploring topics such as platform business models and architecture, blockchain, cryptocurrencies and APIs
